About PuriCore

[PuriCore](http://www.puricore.com) plc (LSE: PURI) is a life sciences company focused on developing and commercialising proprietary green solutions that safely, effectively, and naturally kill infectious pathogens without causing harm to human health or the environment. PuriCore targets markets that depend upon controlling contamination, including food safety in retail and foodservice, medical device disinfection, and wound therapy. The Company's patented, proprietary technology mimics the human body's production of the natural antimicrobial hypochlorous acid, which is highly effective in killing bacteria, viruses, and fungal spores, simply from water, common salt, and electricity. Hypochlorous acid is proven to be safe, environmentally friendly, and fast acting against a broad range of infectious pathogens, including major public health threats of M. tuberculosis, MRSA, E.coli, Norovirus, H5N1 Avian Influenza, HIV, Salmonella, Polio Virus, Helicobacter pylori, and Legionella. PuriCore is headquartered in Malvern, Pennsylvania, with offices in Stafford, UK.
